

CONCEPT – IMAGE – RECEPTION

BAROQUE CEILING PAINTING IN THE SETTING OF EUROPEAN MONASTERIES

International Conference, Bratislava, 19–21 September, 2013

The conference is organised by

The Institute of Art History of the Slovak Academy of Sciences, Bratislava

in cooperation with

The Research Group for Baroque Ceiling Painting in Central Europe (BCPCE)

The Department of Art History, Faculty of Arts, Masaryk University in Brno

The Institute of Art History, Academy of Sciences of the Czech Republic

The main theme of the conference is the relationship between monumental ceiling paintings and texts relating to them, and their reception, in the European countries in the seventeenth and eighteenth centuries. The formulation of questions and the search for answers to them will take place within the framework of the following thematic fields: the relationship that written sources (contracts, correspondence, inventories, etc.) and historical texts with an iconographical content (literature, concepts – *concetti*, manuscripts or printed descriptions) have to the form the painting subsequently takes; the artistic approach to and formal treatment of the pictorial themes in relationship to architecture, to ceremonial and liturgical practice; the reception of the ceiling paintings and current possibilities for understanding them (interpretation of contemporary descriptions, topographical and pilgrimage literature and other sources); the relationship between ceiling paintings and contemporary iconographical literature and post-Tridentine image theory; the migration of pictorial motifs and artistic exchange in Europe.
